

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Annotation Pad Minnesota Reports

All Citations of All Cases in the Minnesota Reports 1-80, in All the Courts of the United States, both State, Federal and the Lawyers' Reports Annotated.

What is the history of the case? Is it still settled law in this State? Has it been followed in the other states or in the Federal courts? Is it overruled, criticised or limited anywhere?—These are the first questions which come up when a Minnesota decision is cited.

The Minnesota "Co-op" Annotations give the answers.

THE FIRST EDITION of the Minnesota Pad (1-70) comprising the first section of this book, follows the decisions of the Minnesota Supreme Court in their citations throughout the later cases in that court, U. S. Supreme Court, Federal Reporter, New York, Massachusetts, Dakota, Iowa, Michigan and the Wisconsin Reports and the exhaustive annotation of the Lawyers' Reports Annotated.

THE SUPPLEMENT, bound with it, brings all these down to date, includes vols. 70-80, and adds all citations of all Minnesota cases in every other State in the Union, giving you a complete judicial history to date of every case decided in your Supreme Court.

A reference to a note in the Lawyers' Reports Annotated will direct you to an exhaustive treatise on the brief-point involved, making further search unnecessary.

How the "CO-OP" ANNOTATIONS
are used, AS ILLUSTRATED
by SAMPLE PAGE opposite.

HE sample page from the Minnesota Annotations opposite furnishes illustrations of the way that this work will be of daily use to you ; for instance :—

The first citation indicates that the case on page 1 of Vol. 24, was cited in 28 Minn. 503. The cross line indicates that this was the only citation.

The next shows that 24 Minn. page 4, case of *Thompson v. Myrick*, has been cited by later cases in the Minnesota Reports twelve times, the last in 67 Minn. 135,—establishing its standing as settled law.

The case of *McClung v. Capehart*, on page 17, of Vol. 24, is not cited in any subsequent Minnesota case, yet you will note in the first column opposite that it has been accepted as authority by the United States Supreme Court, thus establishing its character as of determining value.

Many other instances quite as striking could be given. They serve to illustrate how common it is that a case which may not happen to have been cited at home, may have been taken up in other states or jurisdictions, and its value as a precedent clearly defined.

You will note that under the case of *Crandall v. McIlraith*, 24 Minn. 127, referred to in the second column on the opposite page, you are referred to a note in 25 Lawyers' Reports Annotated, 717, where are gathered all the cases in the United States on "Burden of Proof ; Care of Master in Selection of Employee." The Minnesota case has never been cited in any opinion and no other citation table refers you to that mine of information. The same is true of cases on pages 25, 167, 251, 265, 173, and 304. You can only get that information here.

If in this table you are referred to a note in Lawyers' Reports Annotated that note will give you an absolutely complete collection of all American and English authorities on the point involved.

At the head of the third column, 24 Minn. 140, *Bank of Rochester v. Pierson*, the question of promissory note has been decided in later cases twice in Minnesota, but refers you also to three cases on the same question from South Dakota in the Federal Courts, and two in Massachusetts.

Other annotations have only given the citation of a Minnesota case through the later Minnesota cases. This one not only gives all Minnesota citations to date, but also refers you to opinions in the eleven series of reports most valuable to you, where Minnesota cases are cited, and that at trifling cost.

After you have exhausted the citations in *this* section turn to the supplement in the back part of the book which will give all the remaining citations in all courts in the United States.

This is the only publication that gives all this information.

Cited in the following series:

Minnesota (Minn); Lawyers' Reports Annotated (L R A) and its Annotation (n); Dakota (Dak); North Dakota (N Dak); South Dakota (S Dak); Federal Reporter (Fed); Iowa (Iowa); Massachusetts (Mas); Michigan (Mich); New York (NY); U. S. Supreme Court (U S; LEd, Lawyers' Edition); Wisconsin (Wis).

METHODS *of* USING

To get the greatest utility from these citations the gummed sheets should be cut up on the dividing lines and the citations for each case pasted on the margin of the page opposite the title of each. A careful office boy or assistant can do this.

Some lawyers, however, are content to paste the entire sheet of citations on the inside of the cover of the volume annotated.

The bound volume of annotations can be slipped into your pocket and carried to court where you may test your opponent's citations.

Look up your citations in both the body of the work and the Supplement, and get the complete history of the case.
